

# Centuris™ Pro bed with split siderails

A cost-effective solution for quality care

## Features and benefits

**AutoContour™ and SlideGuard™** minimise patient migration in bed, reducing abdominal compression during bed articulation

Easy-to-read **Line-Of-Site™ backrest indicator** assists in implementing caregiver protocols

The lowering of the **split siderails** can be activated using one hand and feature a smooth, rapid self-lowering mechanism allowing for quick access to patients

Stable support is provided during bed exit via an **ergonomically-placed side egress grip handle**

**Functional lock-out on controls** offers enhanced operational safety

A **220 kg Safe Working Load** accommodates a greater range of patients

**150 mm single band castors including steering castor** allow for ease of manoeuvrability

**Centralised braking** enhances patient safety

**The Trendelenburg/Reverse Trendelenburg function** facilitates easier patient repositioning

Choose from either a hand-held **pendant control or integrated controls**, both of which simplify operational functioning of the bed for caregivers

## Centuris Pro bed with split siderails

Technical Specifications		
Safe Working Load		220 kg
Bed weight		133 kg
Height adjustment		39 to 77 cm
SlideGuard sliding backrest		up to 12 cm
